

AFLDS ATTORNEYS FILE MOTION TO HALT ALL “VACCINE” MANDATES IN ALABAMA FEDERAL COURT

Attorneys for America’s Frontline Doctors (AFLDS) and a number of government contractor employees filed a **Motion for a Preliminary Injunction** against the Biden Administration, DHHS, FDA, NAIAD, FDA NIH, the CDC and others on Friday, in federal district court in the Northern District of Alabama.

The Motion seeks to temporarily halt all “vaccine mandates” on numerous grounds. It challenges the validity of President Biden’s Executive Orders No. 14042 and 14043, arguing that there is no statutory authority to support them, and that the Orders are an unlawful exercise of authority that belongs to the legislative branch of government alone. The Motion points out that Biden’s unlawful mandates violate the Nuremberg Code and fundamental rights to bodily integrity, as protected by the U.S. Constitution. The Motion also challenges the validity of the “emergency use authorization” (EUA) granted to the experimental gene therapy injections that are inaccurately referred to as “vaccines” by Pfizer, Moderna and Johnson & Johnson.

Attorneys for AFLDS argue that the “vaccine” manufacturers have engaged in “misbranding” and “adulteration”, both of which constitute criminal violations of federal law. They point out that Pfizer alone has paid over \$4.5 billion dollars in penalties related to health care fraud and misbranding. The Department of Justice recently levied what they call the largest fine in history against Pfizer and its subsidiary in a plea agreement to resolve civil and criminal penalties for the same sort of violations that AFLDS attorneys argue that all three manufacturers are guilty of with regard to the so-called “vaccines”.

AFLDS’s Cornerstone Attorney Michael Hamilton summarized the Motion: “In a nutshell, President Biden violated the U.S. Constitution with unlawful Executive Orders intended to violate Americans’ constitutionally protected civil liberties. He is attempting to force misbranded, adulterated and experimental injections upon We The People. The entire scenario demonstrates an utter lack of sound judgement, moral awareness, and absolute contempt for the rule of law.”

AFLDS stands in the breach against tyrannical encroachments upon civil liberties. We believe every American should have a free and fully informed choice as to whether or not to accept the experimental gene therapy “vaccines” without governmental force or coercion.
